Dear Meredith,

We are just about to do another temp-to-perm hire with one of the techs you provided. I wanted to take a minute to tell you how happy we have been with the services of United Staffing. I never thought that the whole temp-to-perm idea would be something that we would incorporate as part of the way we do business – but now I can't imagine it any other way.

The first benefit is the amount of management time saved by not having to wade through mountains of resumes every time we have an opening. The candidates from United come to us screened and well suited for the position. We use the 520 hours as a probationary period. Again, not wasting management time with all of the hiring paperwork and processes until the candidate has already proven themselves to be a great fit.

We now have many staff members that came to us through United Staffing and they have helped us to grow our company the best way a company can – with good people.

Thanks so much,
